Passive Safety update

As you might have already read in our last newsletter, new crash demonstrations were performed at Mira in June. Our new passive safe certificate is available. If you would like to know the latest developments around passive safety, please have a look at the updated passive safe pages on our website. They also include crash test movies. If you would like to receive our new passive safe brochure, please let us know.

Coming Events

Sapa Pole Products will be present at:

Road Expo '09
Scotland (Edinburgh)
4/5 November
Stand AA9

Passive Safety Exhibition DRD NI Roads
Service offices,

PLDC Convention 2009

The 2nd Professional Lighting Design Convention will be held in Berlin, Germany from 28th to 31st October, 2009. This convention follows in the footsteps of the immensely successful PLDC 2007, held in London, UK in October 2007. Sapa Pole Products is Silver sponsor of this event and will have a booth at the exhibition area of the convention.

Sapa signals at Signpost Solutions Ltd

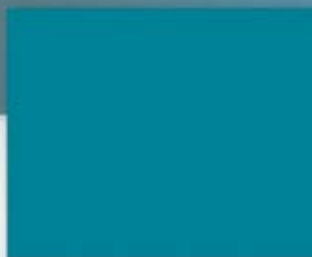

Signpost Solutions, the UK market leader in passive safety structures has been appointed as distributor by Sapa Pole Products for our new passively safe traffic signal pole. Signpost Solutions sees an aluminium passive option as a logical step within this growing market sector. The crash tested and fully approved (see certificate below) passive signal pole has a patented design which allows sizes from 2 to 6 meters to fit the common 114mm ground sockets, aiding also retro-fit installations.

Traffic Signal Pole Certification

Sapa Pole Products

The easy higher Low hinged column

The low hinged column has an invisible patented hinge mechanism for columns till 6 meter. It works fast, easy and secure because of the low weight of aluminium. The low hinged column can also be delivered with a raising & lowering tool.

Press [here](#) to see the manual of the low hinged column.

Tilting in a trice High hinged column with a winch

Sapa Pole Products has a high hinged column (till 10 meter) developed which can be hinged with help of a winch system. Because of this the camera or the lantern can be replaced or serviced. Press [here](#) to see the manual of the high hinged column with a winch.
