March 2011

Launch of new sign post range

Accidents can easily happen. Many fatal incidents occur on an annual basis. Besides lighting columns, Sapa Pole Products can also offer a NEW range of Passively Safe aluminium Traffic Sign Posts, to help secure the safety of vehicle occupants in the event of an accident.

Like all of our Passively Safe products, the Sapa column benefits from full certification from a Notified Body, following an extensive crash-testing program. Click on the picture to view the certificate:

Sapa Pole Products will be present at the Traffex 2011:

Traffex

29-31 March 2011 | The NEC, Birmingham

We look forward to seeing you at our stand at the Traffex 2011 at stand B30!

Case Study A27 West Sussex

On a recent passively safe lighting column scheme of Sapa on the A27 near Bognor Regis, the RS200mm Retention Socket foundation system and the SIS SOLO underground were used

The passively safe post installation at Fontwell consisted of 12m high aluminium lighting columns of Sapa Pole Products. After a vehicle collision within six months, one of the columns was knocked down. Because of the passive safe column in combination with the SIS SOLO underground and the Retention Socket the occupant in the vehicle were uninjured.

Sapa Pole Products is proud to be a member of:

The Highway Electrical Manufacturers and Suppliers Association

New facility, big benefits

Did you know that there are big opportunities for you, making use of the new facility of Sapa Pole Products in Redditch?

There is a full range of standard, passively safe columns and hinged poles on stock. A list of stock items can be found on the [new Redditch website page](#).

The showroom and conference room are ideal to have your meetings in. If you have meeting, training or other functions planned, [let us know](#) and we will help you to make your event successful.

Together with the demonstration garden, there is enough room to get inspired to make your roads safer and your streets more beautiful!

Introducing... Andrew Tucker

Andrew Joined Sapa Pole Products in June 2010. In his previous roles he has been involved in Specification for the Construction Industry, and with his experience he hopes to bring more specification to expand Sapa Pole Products within his area of Midlands and South East of the UK.
