

Sapa Mass Transportation – Worldwide Supplier of Aluminium Marine Solutions

Adding value to marine constructions

Sapa Mass Transportation can deliver any aluminium profile you want – but we can also create profiles and contribute to solutions, you haven't thought of yet. Using specialists recruited from the marine industry we know how to add value to your business. Through Joint Design development programmes we add our knowhow to yours in order to develop cost-effective and optimized solutions.

Sapa Mass Transportation's Project Management Concept

You only need one single point of contact to get direct access to our global design, development and production resources. Tell us when, how and where you want the profile solution, and we deliver it just in time all over the world. By shortening your total project time we help you stay competitive.

Friction Stir Welded (FSW) deck panels up to 26 meters

Converting a traditional welded deck to FSW deck panel solutions offers a sea of opportunities. Our combination of large structural extrusions and FSW panels incorporated into a project management concept, gives you the benefit of:

- Kitting of completed deck or bulkhead panels ready for installation
- Superior tolerances – efficient vessel building
- Reduced man hours/ton – by component sourcing packed in kit
- Significant weight savings from optimized profile and structural component layout
- Improved fuel economy and reduced Green House Gas emission.

Sapa Mass Transportation – part of a growing global family

Since 1963 Sapa has grown to be the world market leader in developing, manufacturing and marketing value-added profiles and turnkey solutions in the light-weight material aluminium.

In all our business segments our concept is based on close co-operation with the customers.

The largest customer segments are the construction, transport and engineering industries and the domestic and office sectors.

The Sapa Group is organized into seven business areas:

Building System, Heat Transfer, Sapa Profiles North America, Sapa Profiles North Europe, Sapa Profiles Central Europe, Sapa Profiles South Europe and Sapa Profiles Asia.

Production and sales representation in:

Belgium, Canada, China, Denmark, France, Germany, Hungary, Italy, Lithuania, Mexico, the Netherlands, Poland, Portugal, Romania, Slovakia, Spain, Sweden, the United Kingdom and the United States – plus sales representation in a number of additional countries.

President and CEO: Bjørn Wiggen

Turnover 2008: 32,500 MSEK
(3.4 billion EUR / 4.9 billion USD)

Number of employees: 13,000
