

**Packing in Stillage Supply Agreement**

This agreement is made between Sapa Profiles UK Limited and ..... for the supply of aluminium extrusions delivered in steel stillages.

The reason for use of stillage is to protect the material from damage, in an easily stored container which can be re-used as totally recyclable packaging. To this end, it is imperative that all stillages are accounted for and as such, where supply is agreed to be made in stillages the following conditions will apply:

- Sapa Profiles UK Limited will provide stillages for the packing and protection of agreed aluminium extrusion supply to .....
- All stillages provided will be counted out on despatch to ..... and in, on return to Sapa Profiles UK Limited. A summary of stillage movement including rolling balance will be held at our premises and available for ....., to review.
- Stillages will be available for use by ..... who will be responsible for the safe storage, avoidance of damage and return of such within a maximum period of 12 weeks.
- Should the stillages not be returned, or found to be seriously damaged, then ..... will be charged with the full cost of replacement. (Reference cost: £100: July 2008)
- In order to facilitate an accurate balance of stillages an audit count will be conducted at ..... and an opening stock of stillages agreed between the parties.
- ..... will allow Sapa Profiles UK Limited unhindered access by one of its employees or nominated third party to check, at any time, the current balance held at ..... premises. Further, Sapa Profiles UK Limited reserve the right to enter the premises of ..... to collect any unreturned stillages.
- No stillages should leave the premises of .....any third party without the expressed written permission of Sapa Profiles UK Limited.
- Any stillages received by ..... in a poor state of repair should be notified to Sapa Profiles UK Limited immediately upon receipt.
- Agreed opening Stillage balance: \_\_\_\_\_
