

Sapa Profiles UK Ltd

Environmental Policy

In keeping with the **Values** of the Sapa Group, we adhere to the following **Principles** and **Objectives** as primary references of our Environment Policy:

- We fulfil all legislation and regulatory requirements applied to our business activity;
- We ensure Environmental and Profitability issues are of equal importance;
- We Value and Measure our performance;
- We ensure credible and accurate information is available for internal and external scrutiny;
- We recognise that our environmental responsibility also means establishing effective procedures for waste recovery and recycling at every level within the Company;
- We internally recycle > 96% of raw material and strive to work with our customers to improve the performance of the life cycle of aluminium products;
- We train our employees so that they actively take part with suggestions for the continual improvement of our Environment.
