Portland, OR 97211

Dear Randy:

Congratulations! I am pleased to inform you that your entry into the 2008 International Aluminum Extrusion Design Competition has been awarded First Place in the Transportation Category of the Professional Class. As one of few prizewinners, you have good reason to be proud of your work. Very soon, we will be sending you a certificate to commemorate your achievement along with a check representing the cash award for your efforts.

Winning entries from the competition will be announced at ET '08—the Ninth International Aluminum Extrusion Technology Seminar and Exposition—on May 14, 2008 at the Gaylord Palms Convention Center in Orlando, Florida. I invite you to attend the General Session on Wednesday morning May 14 to hear the announcement. If you plan to attend, please contact me directly at nmolenda@tso.net or (847) 526-2010. After ET '08 the winning entries will be posted at the ET Foundation's website (www.etfoundation.org); I hope you will visit the site soon so that you can see not only your own entry, but the other prizewinners, as well.

Thank you again for participating and for furthering the use of extruded aluminum in our daily lives.

Best regards,

ET FOUNDATION
